TOYOLOGY: SCIENCE THROUGH TOYS

Escuela Bilingue Internacional After-School Science Program: PK–1st Grades

In these exciting hands-on science classes we will build a variety of toys and use them to demonstrate major scientific concepts such as energy, electricity, light, gravity, motion, friction, magnetism and simple machines. Each student will construct and take home a science toy in every class. The classes will be taught by our award-winning staff.

Each student will make and take home:

- Light-up Idea Bot
- Magic Moving Picture Tube
- Topsy Turvy Top
- Tube Rocket
- And more . . .

ABOUT SARAH'S SCIENCE

Sarah's Science was founded in 1987 by Sarah Shaffer to provide a unique and exciting approach to learning about the wonderful world of science and nature.

Our philosophy is that children learn best by doing. All of our programs feature hands-on projects built by each child to engage and delight them while making it easy to understand even complex science concepts. Our programs include camps during most school breaks (Summer, Spring, Spring, and Thanksgiving Break) as well as Saturday and evening workshops throughout the year.

We're looking forward to bringing our after school enrichment program to your school this semester!
